SCOTT J. OSBORNE APPOINTED AS PRIMARY PRINCIPAL

Brings K-12 Administrative and Elementary Grades Instructional Experience

Scott J. Osborne, with prior success as a K-12 Principal, elementary grades classroom teacher, a Reading First program literacy coach and peer presenter, was appointed last night by Peru Central's Board of Education to a three-year probationary appointment as Primary School Principal, starting on or about July 1, 2009, when veteran administrator Christine Angevine retires from active service as a Primary Principal at Peru Central. Peru Primary School serves approximately 440 students in kindergarten through 2nd grade.

Peru Central received applications from over a dozen state-certified individuals for this administrative position. We are fortunate to have in Scott Osborne extensive experience as a classroom teacher in a team setting, solid early literacy background, and a strong track record of success in his current administrative role as K-12 Principal in Essex County.

I look forward to working with Principal Osborne in the years ahead. He is well prepared to provide top quality service as successor Principal for Peru Primary School. Principal Osborne's particular blend of experience was instrumental in his selection as 'best match' for this Principal position from the candidate pool of state-certified applicants. I thank the ad-hoc constituents committee members for their spring 2009 service with preliminary interviews of selected candidates. As is customary at Peru Central when a new Principal begins service, a Principal's Academy will be scheduled to actively engage representative Peru CSD faculty, support staff, parents, administrators and operations supervisors offering Principal Osborne a suitable orientation program, as part of Principal Osborne's entry plan.

APRIL 22, 2009

FROM A. PAUL SCOTT, SUPERINTENDENT OF SCHOOLS
