She Kills Monsters Slays!

Kudos to our Drama Club, led by advisors Chris Urban and Nikki Hilchey, and their production of "She Kills Monsters- Young Adventurers Edition". They collectively tackled challenging issues through their artful and powerful performance. Not only did they entertain, they amplified under-represented voices and cast light upon the importance of being yourself. Great job to all!

The National Honor Society serves the Community

The Peru High School National Honor Society, advised by Ms. Jeanne Caron, has been very busy this year. The National Honor Society is charged with upholding leadership, scholarship, character, and service through their endeavors and they certainly delivered. They offer to tutor students, sponsored a trunk for Trunk or Treat at Clinton Community College, raised money for UNICEF, and supported families in need during Thanksgiving by donating food baskets. During the holiday season, they sang Christmas Carols with members of the high school chorus to the residents of Apple Valley and gave each resident a gift bag, made thank you cards for the entire janitorial staff, and donated gift cards to families in need. Keep up the good work!
