

Naviance Family Connections

Peru Junior/Senior High School

What is it?

Naviance is an online college and career readiness platform that helps align student strengths and interests to plans for life after high school.

Where might my student use it at Peru?

Naviance is in the process of being rolled out during grade level CHISEL activities, in specific classes like Career and Financial Management, individually in the College and Career Center, and in small groups.

When can students use it?

Naviance has many great self-discovery tools that allow students to find out more information about their interests, strengths, and learning preferences. It's available for use anywhere students have internet access. We encourage students to use this resource as much as they can...at school and at home!

CHISEL Project Naviance Implementation Plan by Grade Level

- | | |
|----------|---|
| Grade 7 | Strengths Explorer |
| Grade 8 | Learning Style Inventory or MI Advantage |
