

## STUDENT PRIVACY

The Board recognizes its responsibility to enact policies that protect student privacy, in accordance with law. This is particularly relevant in the context of the administration of surveys that collect personal information, the disclosure of personal information for marketing purposes and in conducting physical exams.

The Board of Education recognizes that student surveys are a valuable tool in determining student needs for educational services. In accordance with law and Board policy, parental consent is required for minors to take part in surveys which gather any of the following information:

1. political affiliations or beliefs of the student or the student's parent;
2. mental or psychological problems of the student or the student's family;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating or demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers;
7. religious practices, affiliations or beliefs of the student or the student's parent; or
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

In the event that the district plans to survey students to gather information included in the list above, the district will obtain written consent from the parent/guardian in advance of administering the survey.

The notification/consent form will also apprise the parent/guardian of their right to inspect the survey prior to their child's participation. A parent/guardian who wishes to inspect and review such instructional material shall submit a request in writing to the Building Principal. Upon receipt of such request, arrangements shall be made to provide access to such material to within 30 calendar days after the request has been received.

Prior to the administration of any non-emergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school not necessary to protect the immediate health or safety of the student or other students and not otherwise permitted or required by state law, a student's parent/guardian will be notified and given an opportunity to opt- out their child out of the exam. Hearing, vision and scoliosis screenings are not subject to prior notification.
