

FACILITIES DEVELOPMENT GOALS

In meeting its goals of high quality education and fiscal responsibility, the Peru Central School District Board of Education will strive to develop district facilities in a manner that addresses economic concerns, quality education needs, safety, durability, maintenance, insurance and flexibility.

Accordingly, the Board establishes the following broad goals for facilities development:

1. Design facilities for sufficient flexibility to permit program modification or the introduction of new programs.
4. Involve administrators, operations supervisors and appropriate other district employees in design development associated with voter-approved capital projects.
5. Provide adequate school space to accommodate future improvements in educational programs and services.
8. Consider the adaptability of school facilities for community use.

The Superintendent of Schools shall implement these goals on behalf of the Board and shall include a briefing on campus infrastructure within the annual State of the District Report.

Adoption date: July 14, 2009
